PACHU DYNAMIX

PACHU SPARK AUTOMOTIVE PARTS

Find the right system.

A practical reference for Mitsubishi and Isuzu aftermarket parts, brought together in one clearly organized catalogue.

01 **Starting & charging** — 25 entries — 05

02 **Air conditioning** — 25 entries — 07

03 **Engine cooling** — 14 entries — 09

04 **Braking systems** — 28 entries — 11

05 **Clutch & driveline** — 38 entries — 14

06 **Steering & suspension** — 25 entries — 17

07 **Engine & turbo** — 20 entries — 19

08 **Cabin & controls** — 11 entries — 21

PART NUMBER INDEX 22

Search the PDF for any primary or secondary reference.

ORDERING & REFERENCE NOTES 25

PACHU DYNAMIX

A distinctive identity across the aftermarket parts range.

PACKAGING SPOTLIGHT

Selected details from the supplied brand showcase, presented as range illustrations.

Explore by product system

Braking systems / Steering & suspension / Air conditioning

Brand artwork is illustrative. It does not establish the brand, origin or specification of any individual reference.

PACHU SPARK

Recognizable packaging. A clearly organized parts range.

RANGE SPOTLIGHT

Starting & charging
Air conditioning
Cabin & controls

Use the reference tables to identify the required part, then confirm the exact product and packaging with our team.

Product-first navigation

Every listing retains its primary reference and the application details available in the supplied lists.

Showcase imagery is not an OEM-matched photograph for each catalogue entry.

Starting & charging

Alternators, starters and electrical service parts.

01 Power for every start.

25 entries | Section page 1 of 2

Range illustration; not a part-specific photograph.

REFERENCE NOTES

Coverage: 115 Mitsubishi entries and 71 Isuzu entries, reproduced from the two supplied no-price lists. No prices are included.

Primary references retain their source formatting. Listed model names, engine codes and secondary references are supplied application information, not independent fitment certification.

7813A671-4PK appears as both a complete clutch (M029) and a compressor (M040). Confirm the required assembly. For 7813B145-5PK (M041), the description lists 5PK / 6PK; confirm the belt configuration.

M089 has an unclear printed start year (H001-2015). Confirm before ordering. Brand allocation is not specified per reference in the source lists.

Illustrations show brand packaging and product families only. Packaging claims do not override the listed specification or origin; confirm current product details with the team.

Mitsubishi and Isuzu names identify application groups. This catalogue presents aftermarket parts and does not imply manufacturer endorsement.
